CLASSROOM HIGHLIGHTS:

Class 1

This week, Class 1 enjoyed sharing their holiday experiences and discussing the different ways they travelled. The children thoughtfully explored whether their journeys were by land, sea, or air and confidently sorted different types of transport into these categories. We were impressed by their enthusiasm and growing understanding of the world around them.

Class 2

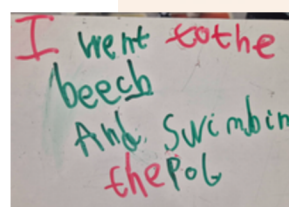

Class 2 has been exploring the weather by observing daily conditions on the playground and recording their findings. The children have enjoyed becoming weather watchers and are developing their observation and recording skills while learning about changes in the environment.

Class 3

This week, Class 3 had a fantastic time building dens and identifying a variety of plants in our outdoor learning area. Alongside their practical learning, the children demonstrated excellent awareness of safety rules and worked together responsibly throughout the activities.

Class 4

Class 4 has been developing their speaking and listening skills through balanced arguments and class debates. The children impressed us with their ability to consider different viewpoints, justify their opinions, and participate respectfully in thoughtful discussions. We would also like to extend a big thank you to Heartstart for delivering CPR training this week. The children listened exceptionally well, participated enthusiastically, and gained valuable life-saving knowledge and skills.

PTA EVENT

PARENT WORKSHOPS

Thank You

HEARTSTART
